DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

3. Claim 9 is objected to because of the following informalities: Regarding claim 9, there should be space between the word "claim and "6". Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6-11 and 17-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 6 recites the limitation "the protective layer" in line 6 of the claim. There is no antecedent basis for this limitation in the claim.

7. Due to their dependence, claims 7-11 and 17-22 are necessarily included in this rejection.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 3, 4, 5, 12, 13, 14, 15, and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Ishii et al. (US 6,520,821).

Regarding claim 1, Ishii ('821) discloses in figure 5 and in column 1, line 38-55 a component, comprising a glass substrate (11), an organic light-emitting diode (13)

arranged on said glass substrate, and a glass cover (15), arranged over the organic light-emitting diode and glued at an edge to the glass substrate.

The Examiner notes that the limitation of the cover being produced from a glass plate by three-dimensional removal of material using a blasting method using commercial crystal corundum having an average particle size of 30 gm and a blasting pressure of 5 bar, is drawn to a process of manufacturing, which is incidental to the claimed apparatus. It is well established that a claimed apparatus cannot be distinguished over the prior art by a process limitation. Consequently, absent a showing of an unobvious difference between the claimed product and the prior art, the subject product-by-process claim limitation is not afforded patentable weight (see MPEP 2113).

Regarding claims 3 and 12, Ishii ('821) discloses that the glass cover is bonded to the glass substrate using an organic adhesive.

Regarding claim 4 and 13, Ishii ('821) discloses that the adhesive is UV curable.

Regarding claim 5, 14, 15, and 16, Ishii ('821) discloses that the adhesive is an epoxy resin.

Allowable Subject Matter

9. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Claim 6 (and therefore claim 7-11 and 17-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
